WORK EXPERIENCE

Shopify Developer

Artologie (Dec 2021 – present)

jasonm.co (Aug 2021 – Dec 2021)

- Built customized lightweight and modern Shopify themes utilizing newer web technologies, and JavaScript and CSS frameworks.
- Provided efficient support and communication to the store owners in explaining technical information during website development.
- Maximized client satisfaction by catering an open approach during eCommerce development to meet dynamic client requirements.
- Migrated 2 existing Shopify storefronts onto newly designed custom-developed client-tailored themes within 2-3 months each.

Student Researcher

Malayan Colleges Laguna (MCL) (Jul 2021 – Aug 2021)

- Demonstrated leadership in creating the COVID-19 Case Tracker Version 2, featuring a web-based dashboard for the case tracking in the Province of Laguna following new web development trends and technologies.
- Received local news outlet recognition after reimplementing the developed COVID-19 Case Tracker to the Province of Davao.
- Sought out by the institution's administrators and its sister school, Malayan Colleges Mindanao, for the integration of the COVID-19 Case Tracker module in both schools' main website.

EDUCATION

Bachelor of Computer Science

Malayan Colleges Laguna (MCL) (Aug 2018 – Sept 2022)

- Won Champion, Most Creative Team, and Best Pitch awards in the Lazada DevFest 2018 Competition in developing a web application within 1 week, competing against top Philippine universities.
